At **Satcop India Pvt. Ltd**, we are dedicated to revolutionising the way you manage your fleet.

COMPANY OVERVIEW

SATCOP INDIA PVT. LTD is one of India's most reputed and trusted names in the vehicle tracking industry. With over 15+ years of experience in GPS tracking systems, the company is headquartered in Pune and has built a strong nationwide presence.

Specializing in GPS-based fleet automation and management solutions, Satcop India offers advanced tracking software and hardware for a wide range of applications, including heavy vehicles, cars, battery-operated vehicles, and even individual tracking needs.

Established with the vision of making fleet management more time and cost-efficient, Satcop India has successfully positioned itself as a leading brand in the telematics space. With a focus on innovation, customer support, and reliable performance, the company is proud to be the first choice of many esteemed clients across India.

FLEET MANAGEMENT

One Dashboard, Total Fleet Control.

Fleet management is the process of monitoring, managing, and optimizing commercial vehicles such as school buses, delivery trucks, logistics fleets, and service vehicles. With modern technology, it goes far beyond tracking, including real-time location monitoring, driver behavior analysis, fuel and maintenance management, route optimization, and safety compliance.

At Satcop India, our advanced fleet management solutions empower businesses and institutions to:

- 🚦 Improve operational efficiency
- 💰 Reduce fuel and maintenance costs
- 📍 Gain complete visibility over vehicle movement
- 🛡️ Enhance driver and passenger safety
- 📊 Make data-driven decisions with live reports and alerts

Whether you're managing 5 vehicles or 5,000, our platform helps you stay connected, compliant, and in control — all in one place

SCHOOL BUS IT SOLUTION

Smart Travel. Safe Kids. Happy Parents.

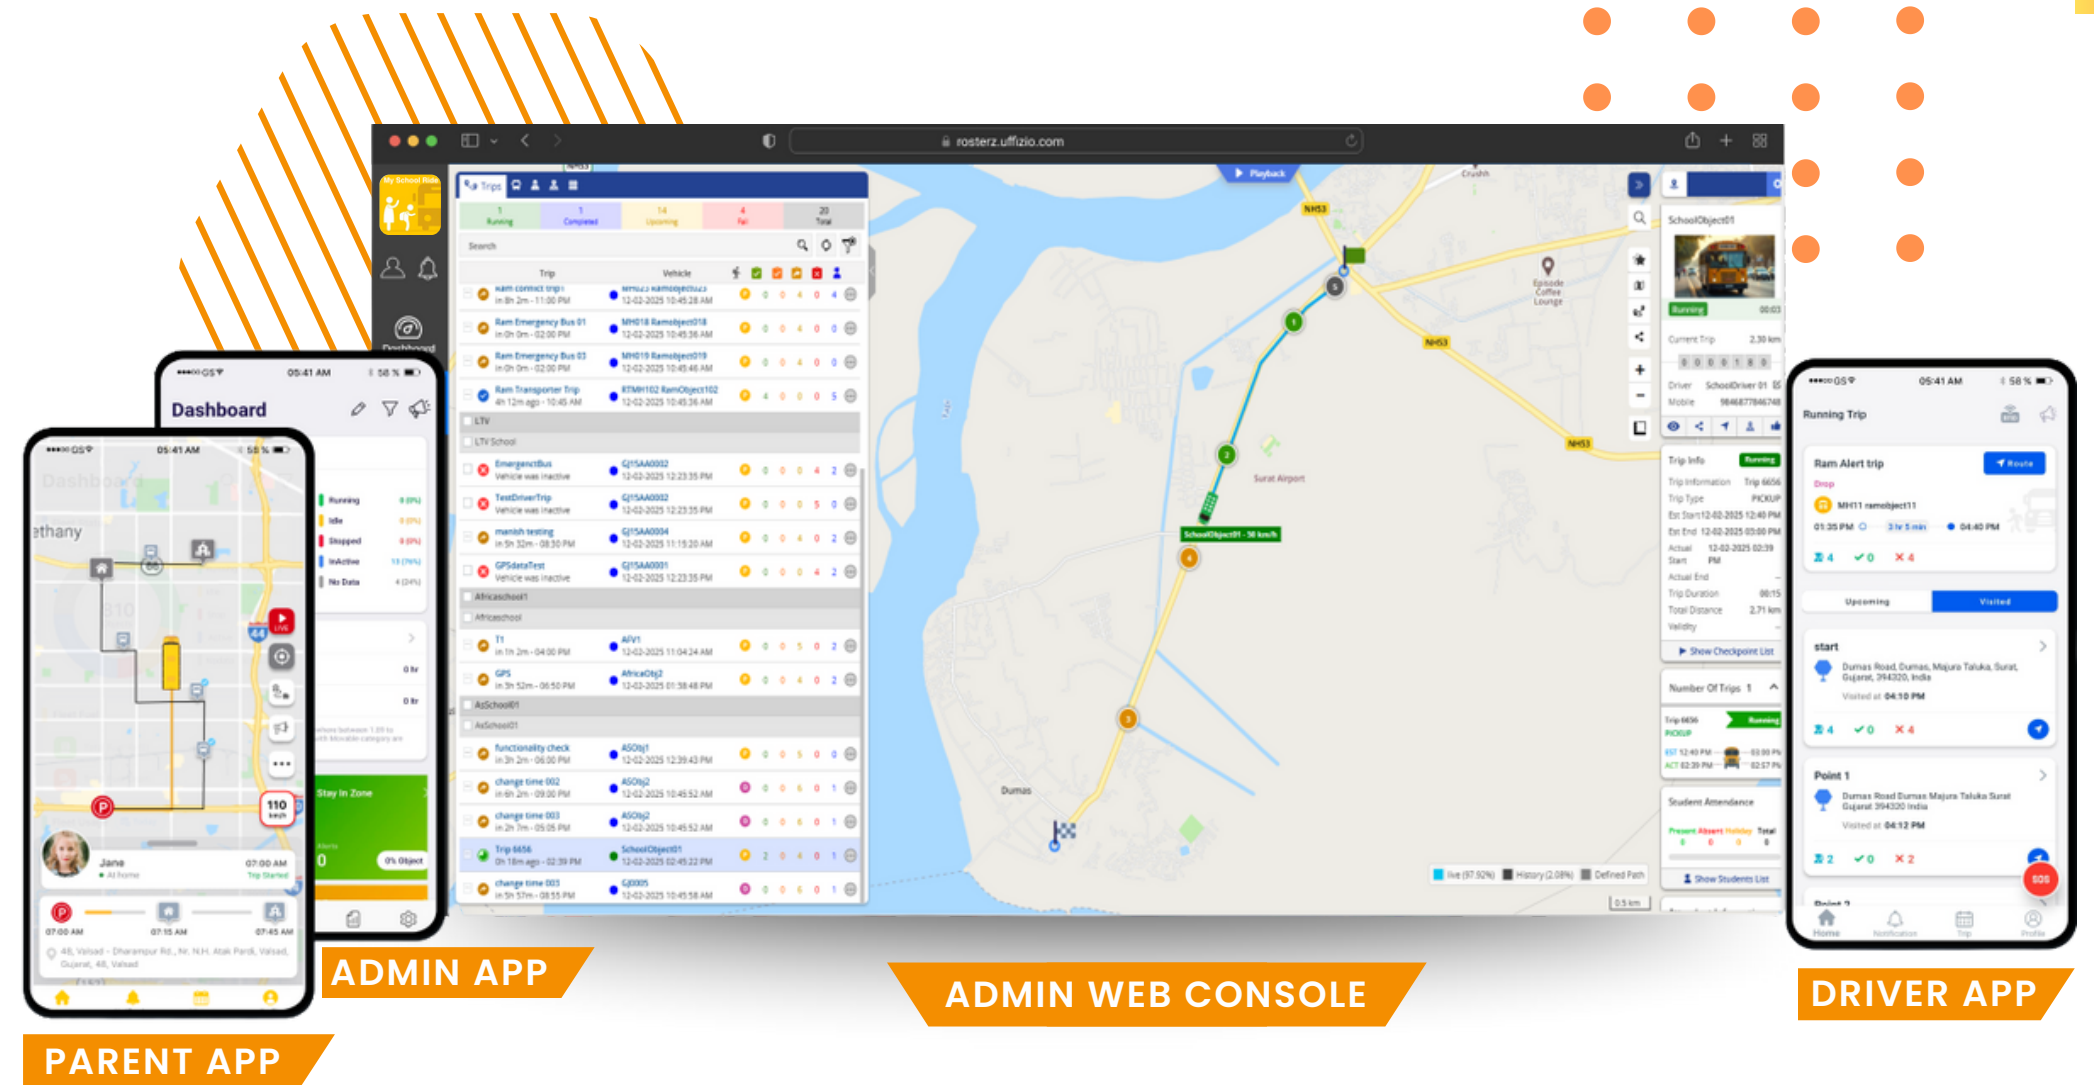

My School Ride is an advanced School Bus IT Solution designed to ensure student safety, operational efficiency, and peace of mind for schools and parents.

The platform combines real-time tracking, RFID-based attendance, automated alerts, and smart route management into one easy-to-use system.

With My School Ride, schools can:

- 🚌 Track buses in real time
- 🛡️ Monitor student entry and exit via RFID/UHF
- 📱 Send instant notifications to parents
- 🗺️ Optimize routes and reduce delays
- 📊 Access detailed reports and analytics
- 🛑 Ensure complete transport safety compliance

Whether you're a school administrator, a transport manager, or a concerned parent, My School Ride brings everyone on the same page - with technology that travels every mile.

SMART BUS

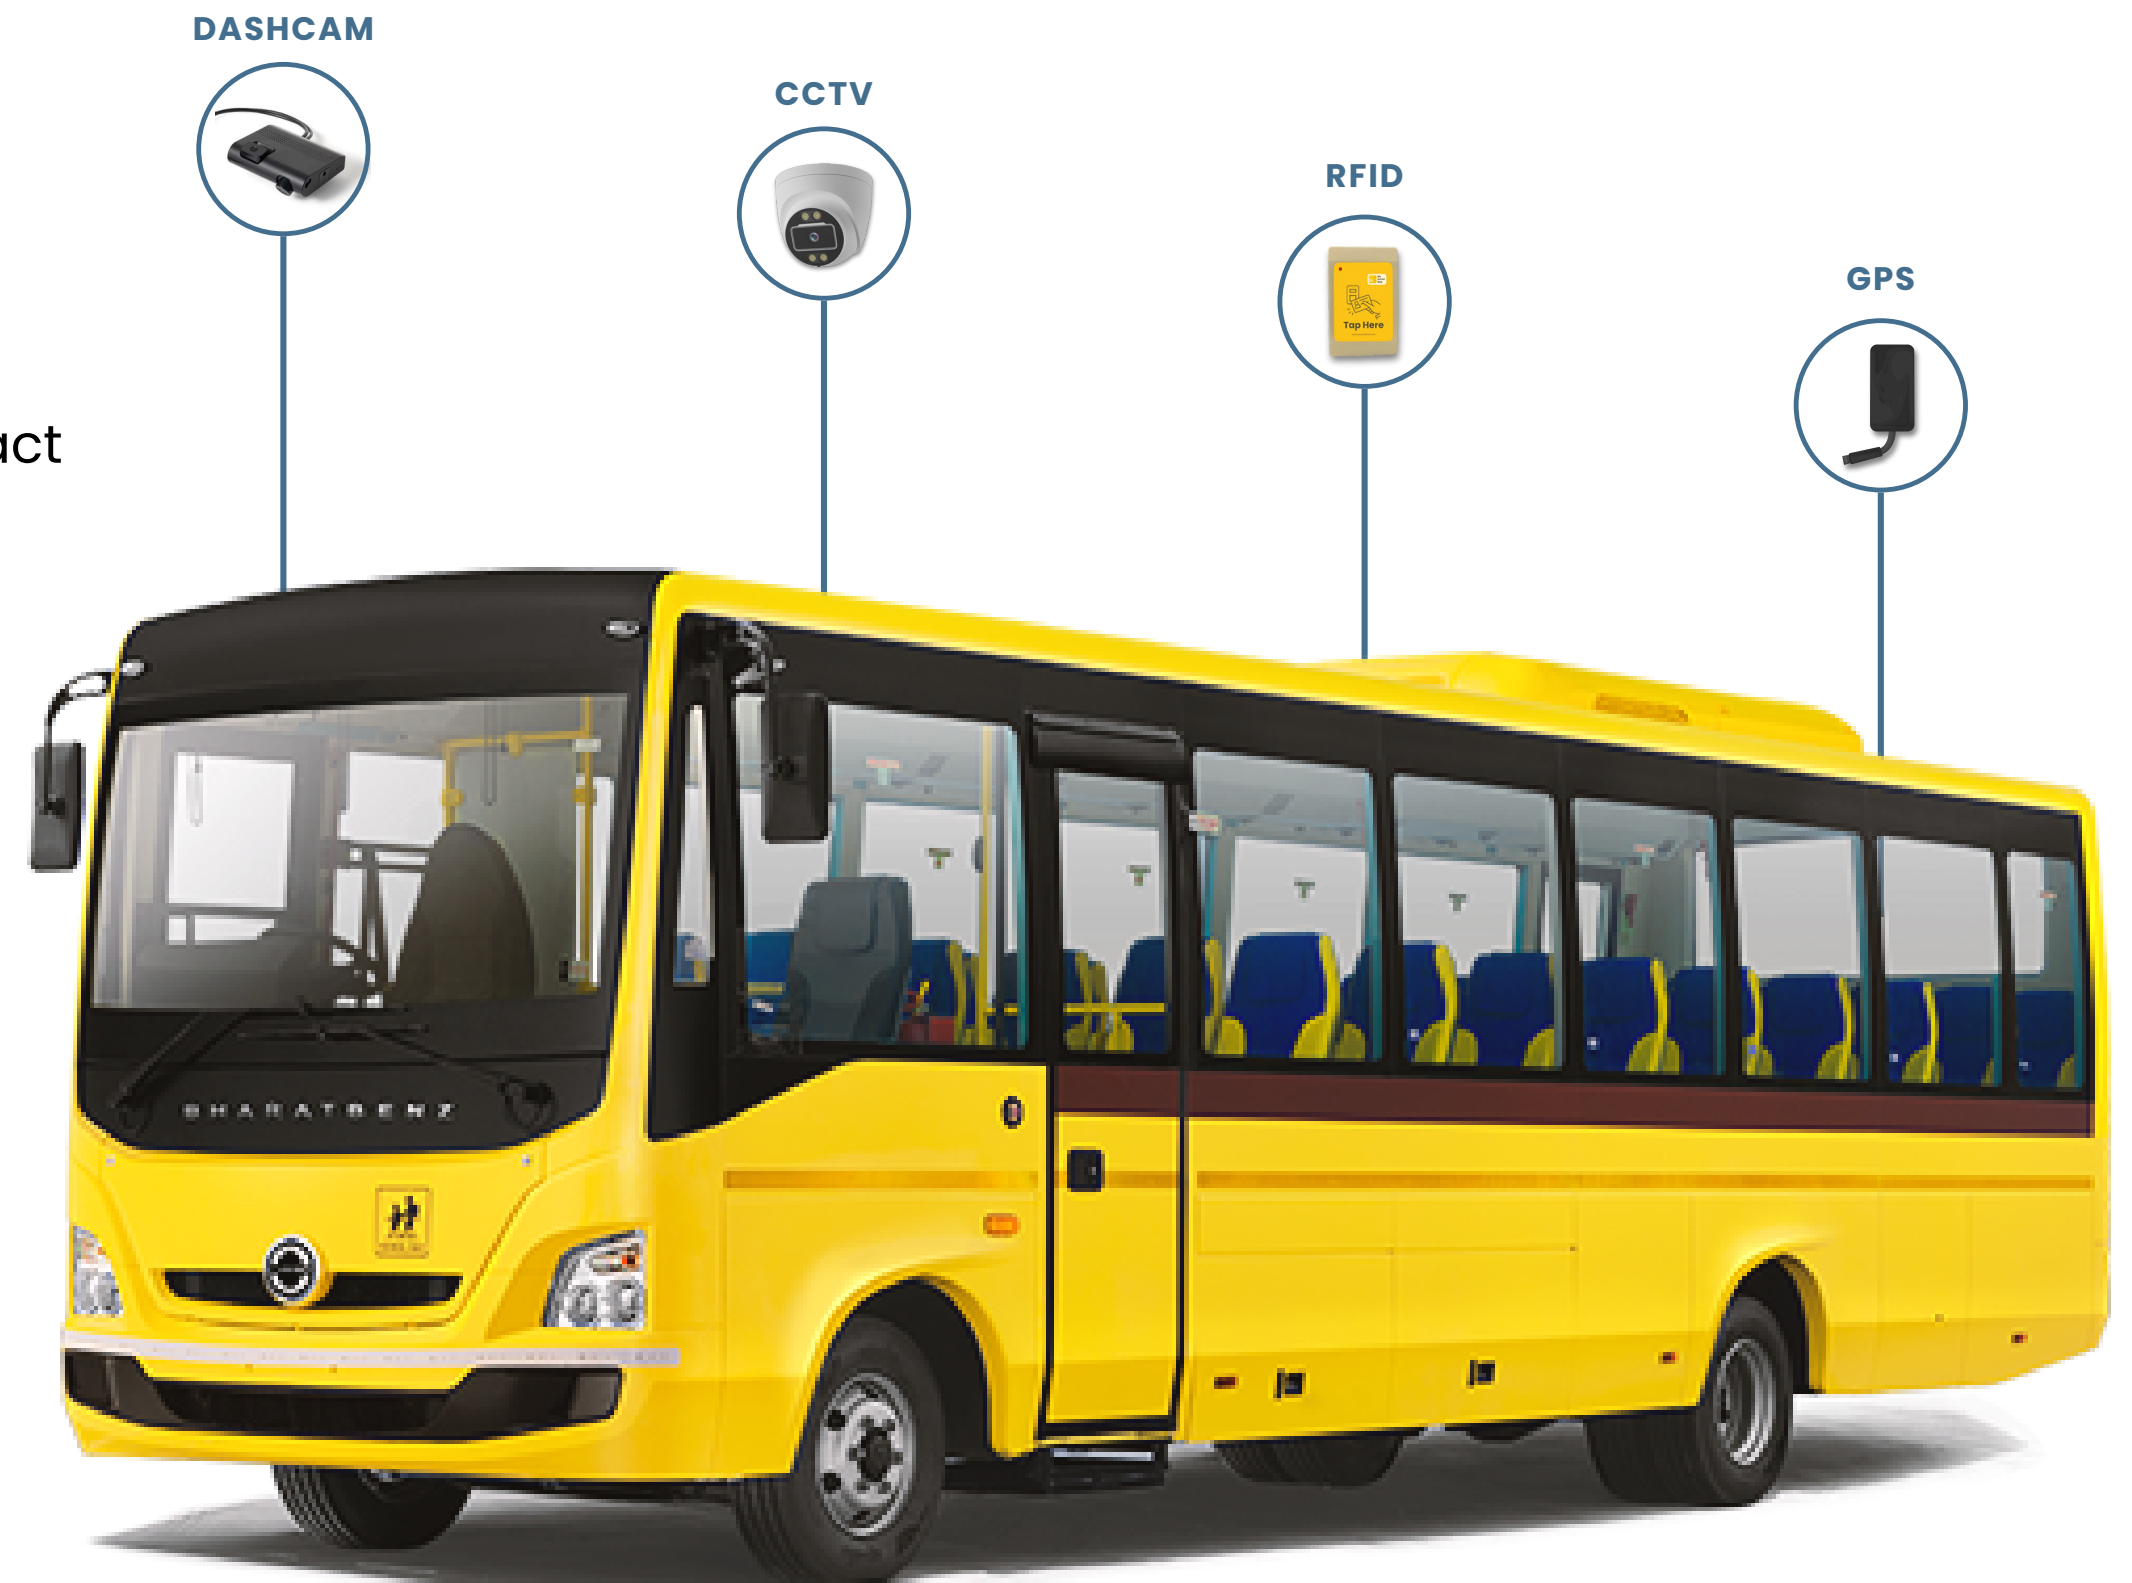

Track every move, reassure every parent.

Keep every ride visible, every moment.

With Smart Bus, schools and parents can track the exact location of each bus in real-time.

- ◆ Live bus tracking
 - ◆ Route deviation alerts
 - ◆ Over-speeding & idle status
 - ◆ Trip start and end notifications
 - ◆ Geo-fencing for safer boundaries
 - ◆ Attendance via RFID
 - ◆ Announcements from school
 - ◆ Student Fees Collection System
 - ◆ Expense Management System
 - ◆ Trips Management Dashboard
 - ◆ Can see student allocated on trips
- and many more...

Peace of mind begins with visibility.

SMART ATTENDANCE

No more manual roll calls or anxious waiting.

Smart Attendance uses RFID technology to record when students board and exit the bus.

- ◆ Automatic attendance logging using RFID/UHF
- ◆ Instant SMS alerts to parents
- ◆ Entry/exit time records
- ◆ Seamless integration with school ERP
- ◆ Real-time data for school admins

Track every move, reassure every parent.

 Your child Juhi, has entered the school premises today at 7:30 AM

SMART SURVEILLANCE

Secure every seat with visual safety.

Smart Surveillance gives schools access to in-bus cameras for live or recorded footage.

- ◆ Dual-view (Driver + Passenger) cameras
- ◆ Backup & live feed
- ◆ Incident review & reporting
- ◆ Driver behavior monitoring
- ◆ Panic/SOS integration (optional)

Safety that can be seen.

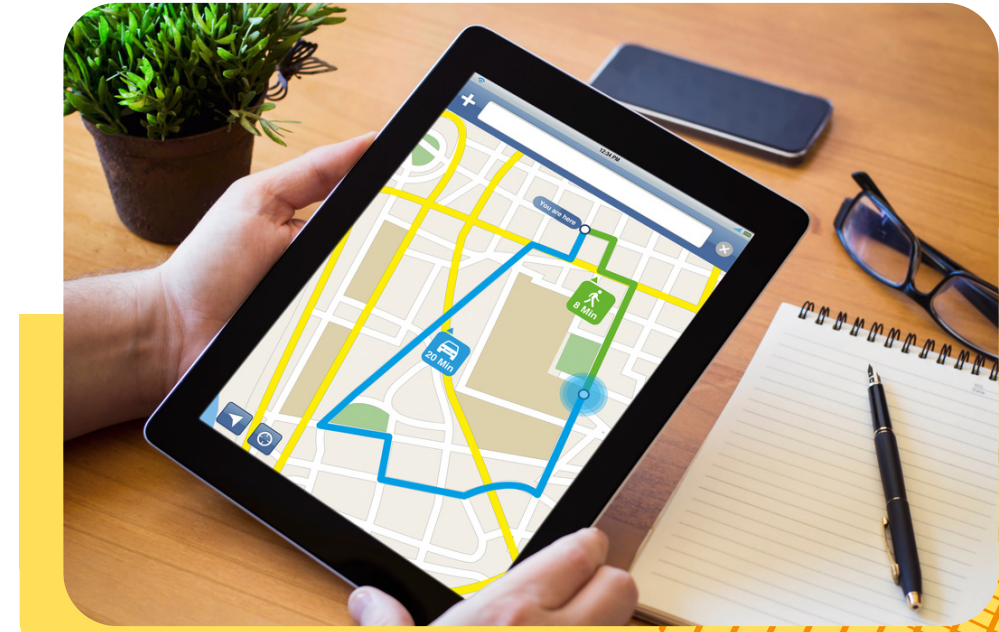

SMART ROUTES

Efficiency meets intelligence with Smart Route.

Plan and manage routes with live updates, optimized timing, and automated scheduling.

- ◆ Intelligent route creation
- ◆ Dynamic trip updates
- ◆ Pickup/drop point allocation
- ◆ Trip-wise student assignment
- ◆ Time & fuel saving analytics

Faster trips. Fewer delays. Happier parents...

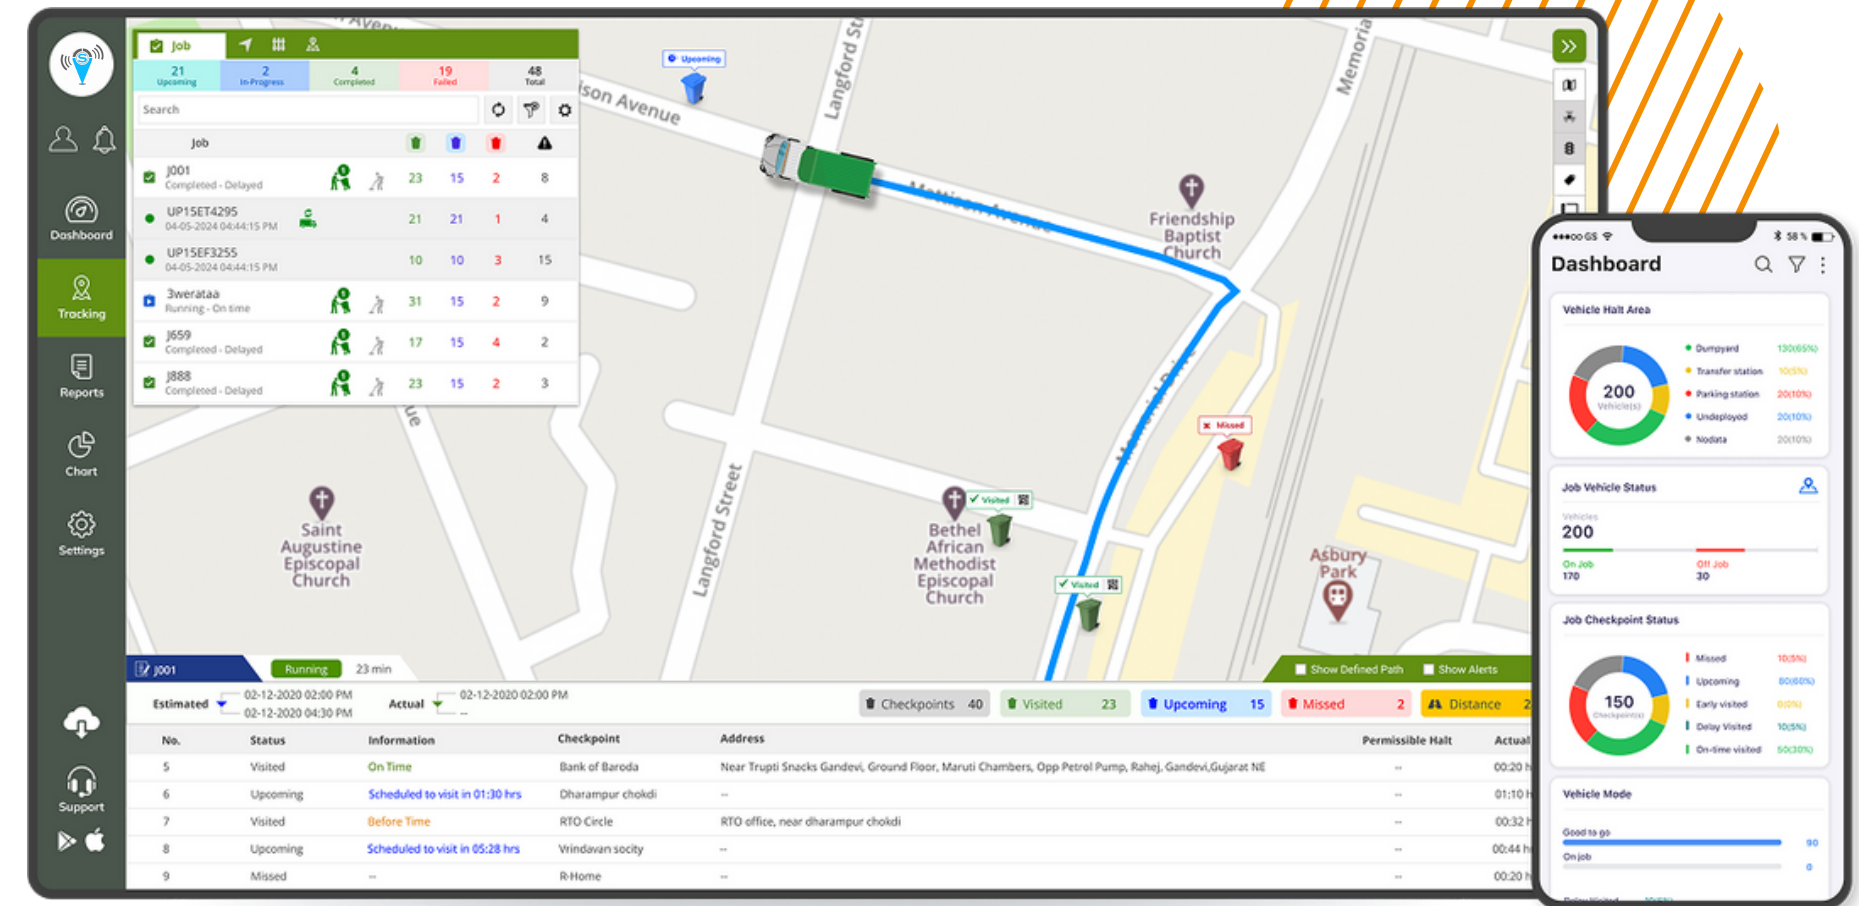

SMART WASTE MANAGEMENT

Smart & Secure Waste Management

Satcop Waste Management Solution is designed to optimize waste collection, disposal, and fleet management operations. Our advanced telematics-based solution ensures real-time tracking, route optimization, and automated scheduling, helping waste management companies improve efficiency and reduce operational costs.

- ◆ Advanced Telematics Technology
- ◆ Customizable & Scalable Solutions
- ◆ Real-Time Monitoring & Automation
- ◆ Data-Driven Insights & Reporting
- ◆ Seamless Integration with IoT & Sensors
- ◆ Dedicated Support & Reliable Service
