What is Smart Surveillance?

- A next-generation security solution that combines AI, IoT, and cloud technology
- Enables real-time video monitoring, intelligent alerts, and automated responses
- Used across industries for safety, analytics, and crime prevention

Features

**High
Resolution**

**Built-In
Microphone**

**4G
Support**

**Time Lapse
Recording**

**Easy to
install**

**Micro SD Card
Support**

**In Built
GPS**

**Speed
Alert**

Use cases

Personal Vehicles – Enhance road safety and capture every drive.

Fleet Management – Monitor multiple vehicles in real-time for better control and security.

Rideshare & Commercial Use – Ensure passenger safety and record driving incidents.

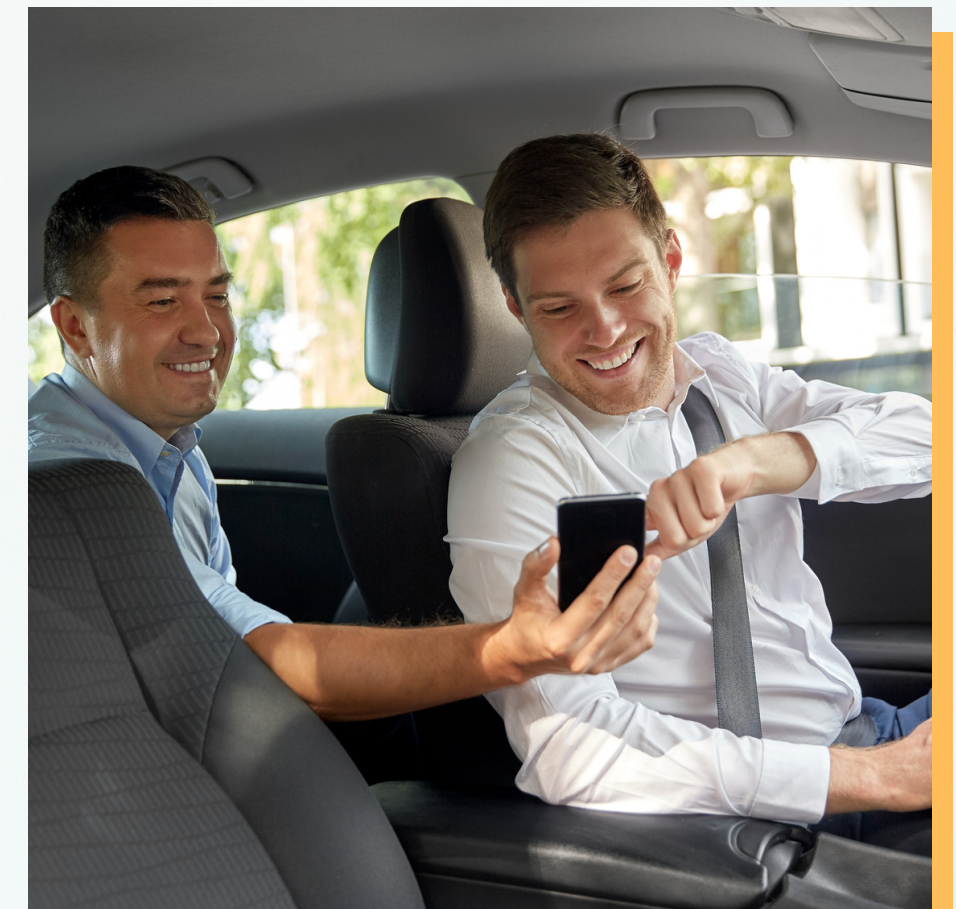

Upgrade your driving experience with the power of 4 G-enabled smart monitoring!

Personal Vehicle

Fleet Management

Rideshare USe

Description

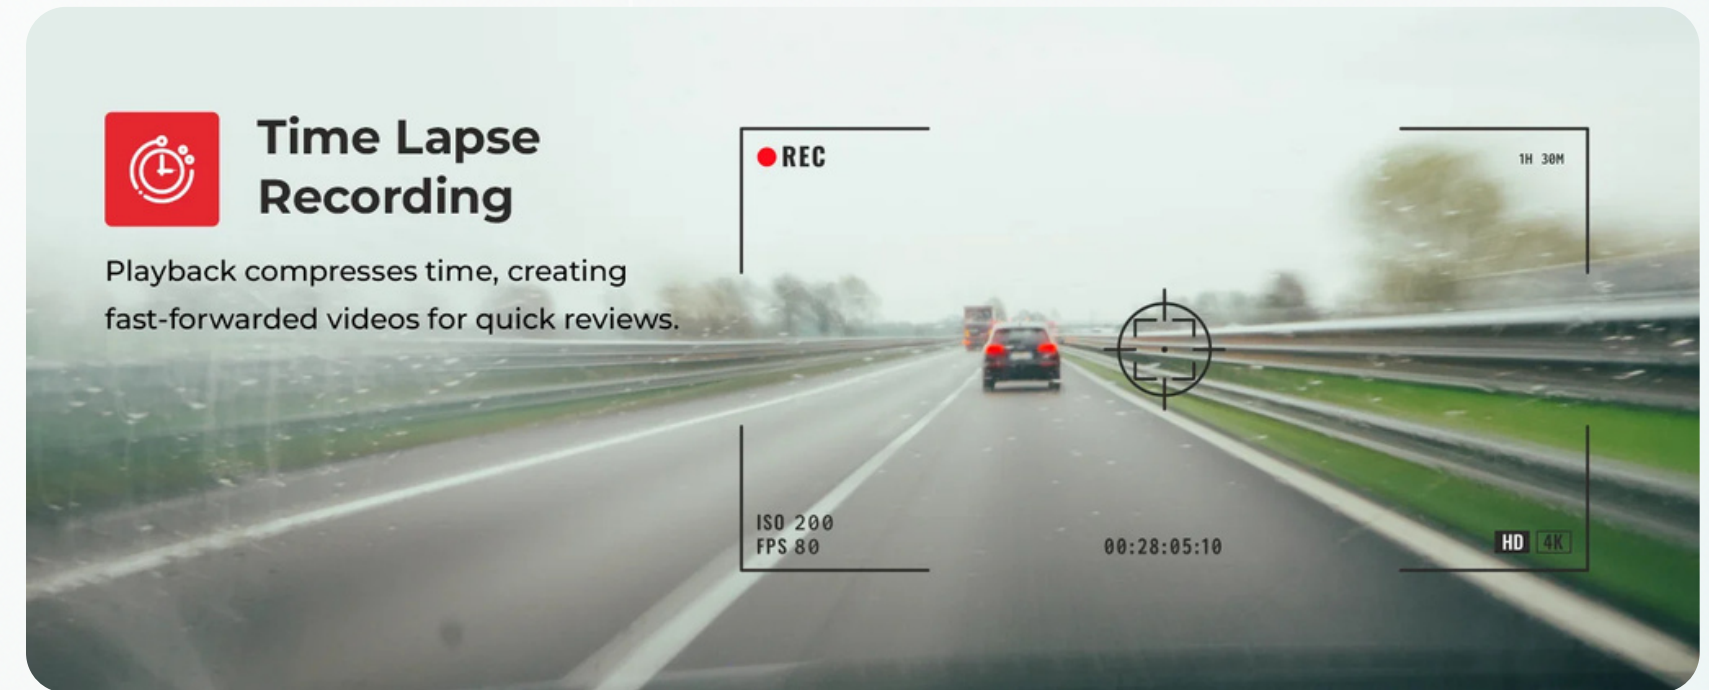

Supports 4G

The dash camera supports a 4G internet connection, allowing you to operate it seamlessly with just a few clicks.

Time Lapse Recording

During playback, the captured frames are played back at a much faster speed than they were recorded. This creates a fast-forwarded video file, allowing you to see a long period condensed into a shorter video.

Speed Alerts

Revolutionizing Safety,
with Instant Warning for Safer Driving

Speed Alert

The Dash Cameras Speed Alert notifies drivers when they exceed a set speed limit. It uses GPS to track the vehicle's speed and provides real-time alerts to encourage safer driving. This feature helps drivers stay within legal speed limits and can be customized for different roads.

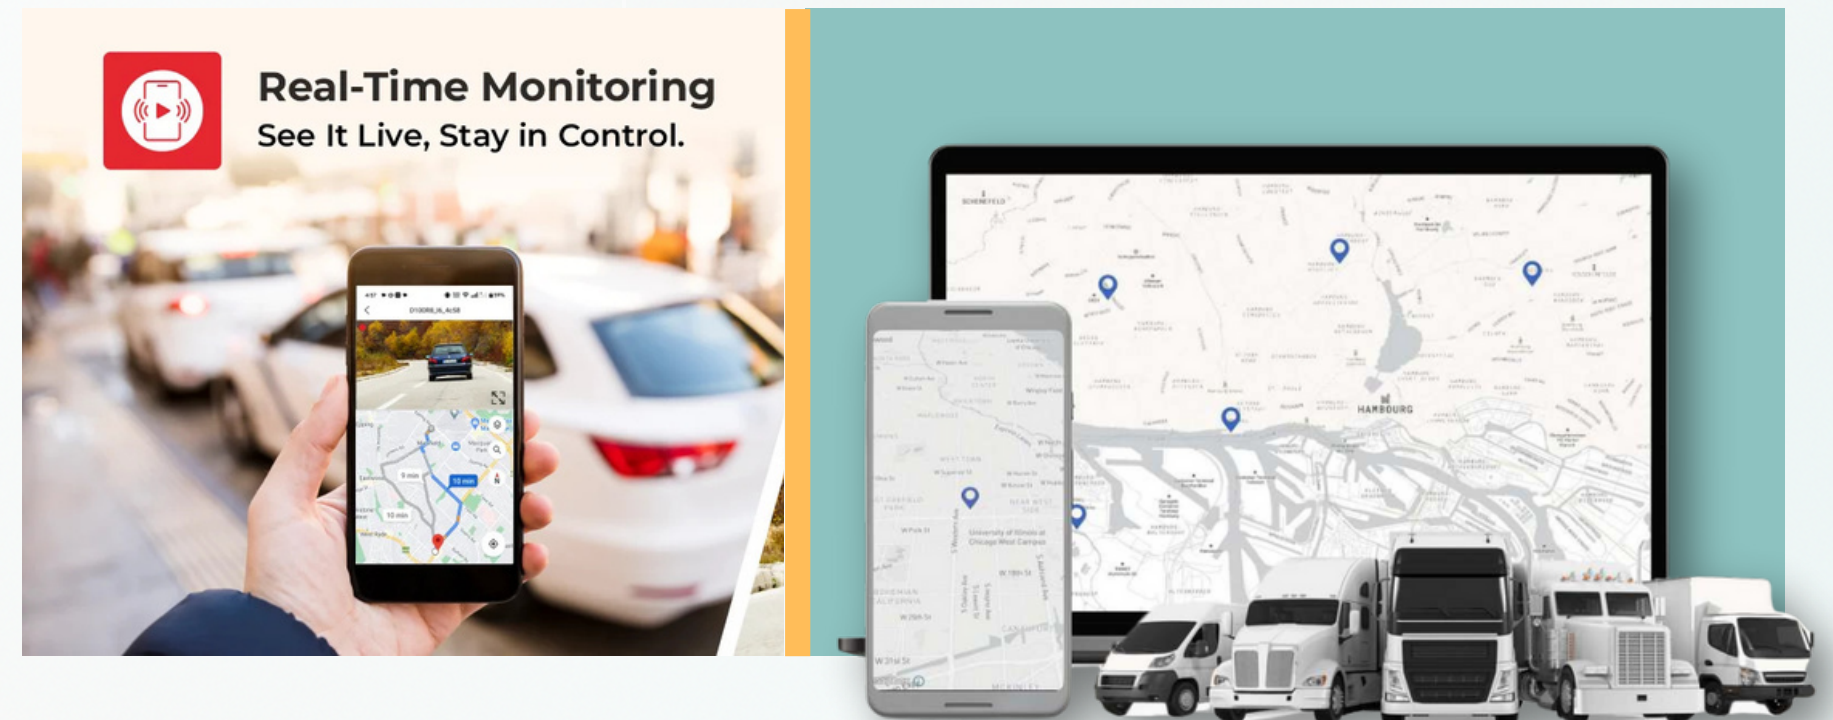

Built-in GPS Tracking

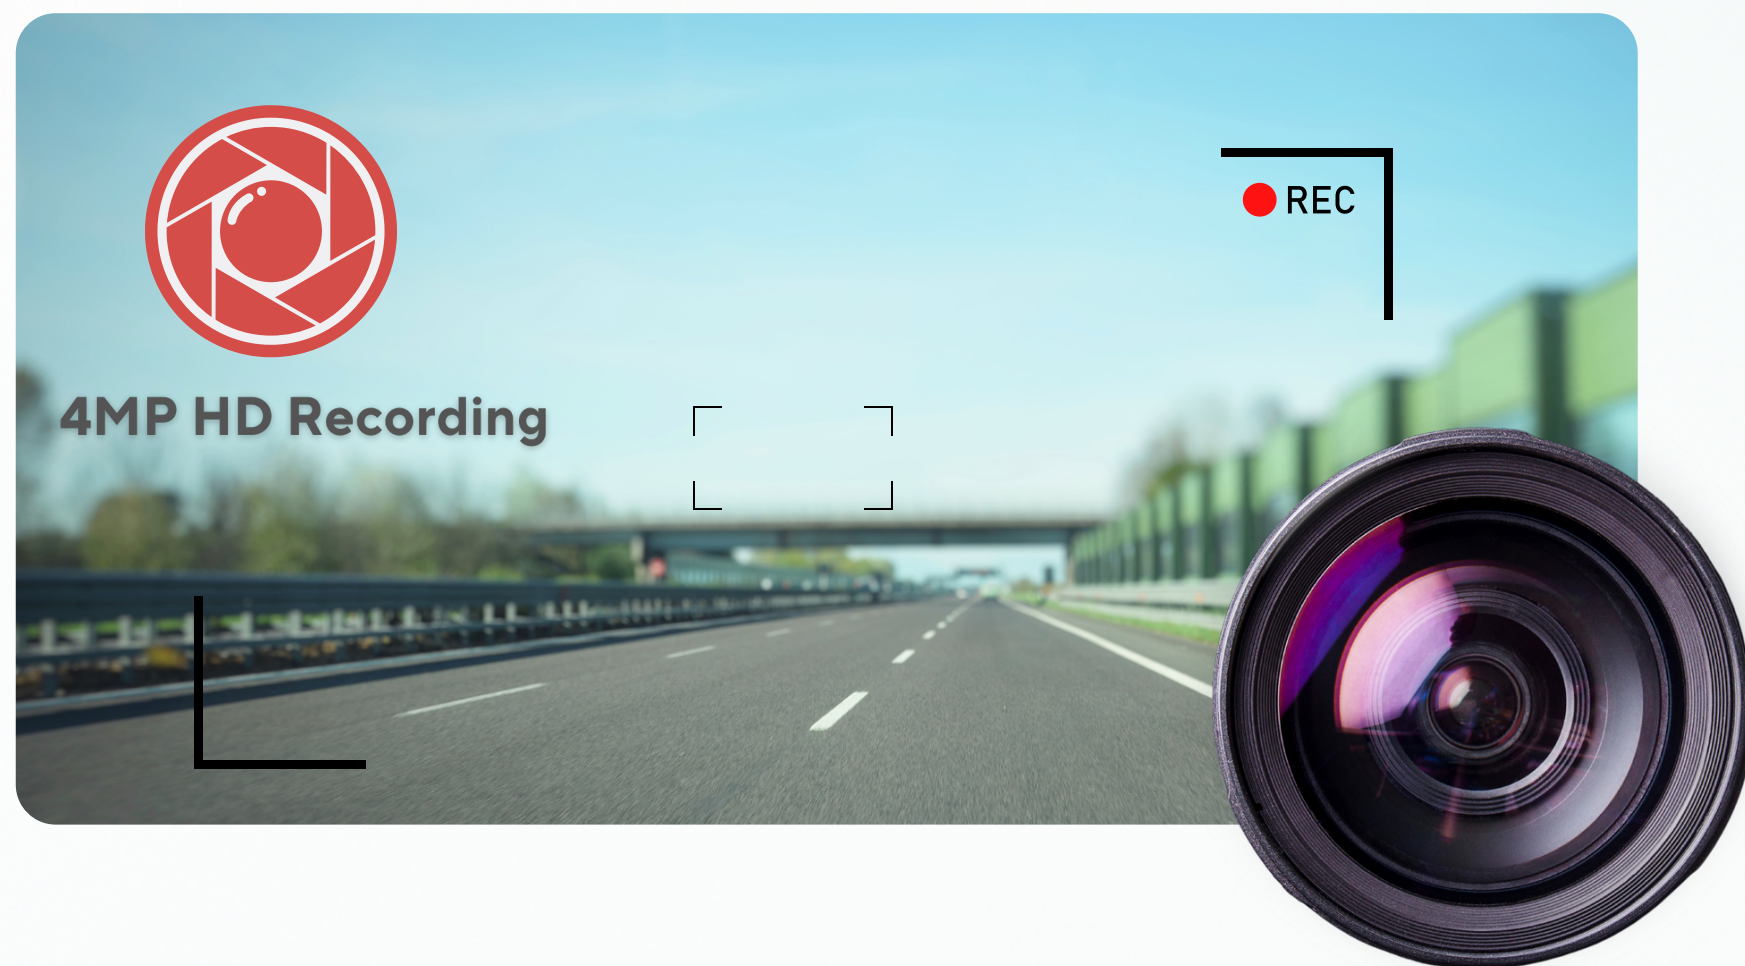

Get accurate location updates, track routes, and view speed logs for added security.

Real-Time Monitoring

See It Live, Stay in Control.

4MP Full HD Recording

Experience crystal-clear clarity on the road with 1080p Full HD recording, ensuring every detail is captured with stunning precision for enhanced visibility and peace of mind.
