ABOUT MY SCHOOL RIDE

My School Ride is a smart school management system that ensures safety, efficiency, and convenience for parents and school administrators. It combines school bus tracking, real-time attendance, and school bus surveillance to provide a secure commute experience. With live monitoring, communication, and optimization features, it offers complete visibility and peace of mind for everyone.

KEY FEATURES

01

Real-Time Monitoring

Parents and school staff can monitor the precise location of school buses in realtime, ensuring students' safety and providing peace of mind.

Student Safety

The app offers robust student safety features, including route monitoring, notifications, and emergency alerts, ensuring a secure journey to and from school.

02

03

Efficient Communication

My School Ride facilitates efficient communication between parents, drivers, and school administrators. It enables messages, alerts, and notifications, streamlining coordination and reducing confusion.

Instant Notifications

Our My School Ride app provides instant notifications for a child's school commute.

04

05

Attendance Tracking

Teachers and administrators can easily track student attendance on the bus and school campus using RFID and UHF technology. This simplifies record-keeping and ensures student safety. Parents also receive SMS notifications for updates.

Reports and Analytics

My School Ride provides comprehensive reports and analytics, enabling data-driven decisions for better route planning, scheduling, and resource allocation.

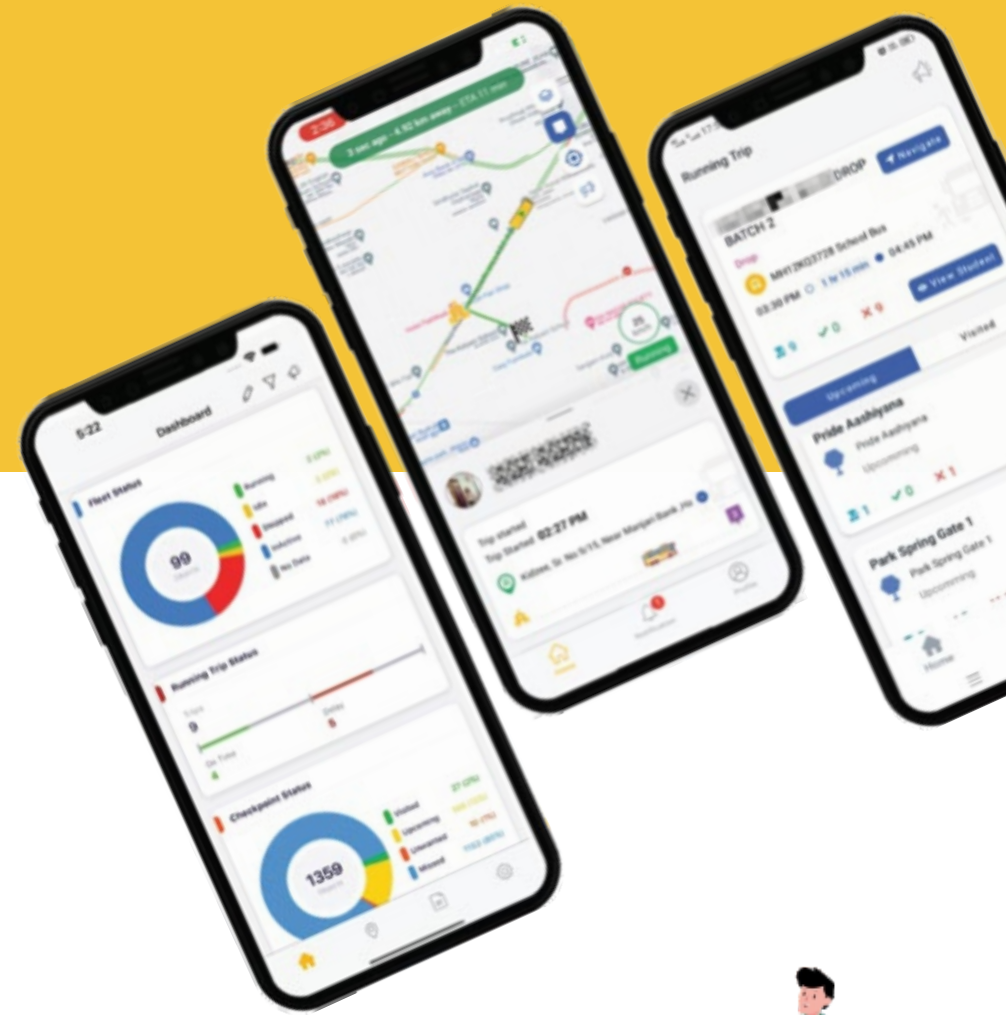

06

And Many More Features...

SMART BUS

Know Where They Are, Anytime, Anywhere.

FEATURES :

- Real-Time Tracking and Notifications
- Trips Management
- Customized notification/Alerts
- Maintain Vehicle Documents
- Expense Management System
- Student Fees Collection System
- Live Cam Feed
- Route Optimization
- Seamless Communication with Parents and Drivers
- User-Friendly Experience
- Multi Language Support
- Dedicated WhatsApp, Email and On-Call Support

Smart Bus is an advanced school bus transport management solution that focuses on keeping students safe and making transportation easy to manage. It uses smart technology and simple features to help parents, drivers, and school administrators. With Smart Bus, everyone gets peace of mind and can handle daily school bus operations smoothly and efficiently.

BENEFITS :

- Can see all child allocated in the bus
- Can see all Pickup/Drop Points
- Can see Student allocated on points
- School Bus route and live monitoring
- Announcement for Driver/ Attendant as well as parents
- Change Emergency/Temporary school bus from the app
- Status of Running buses and Parked buses
- Attendance of students
- Wrong direction alerts
- SOS Alerts

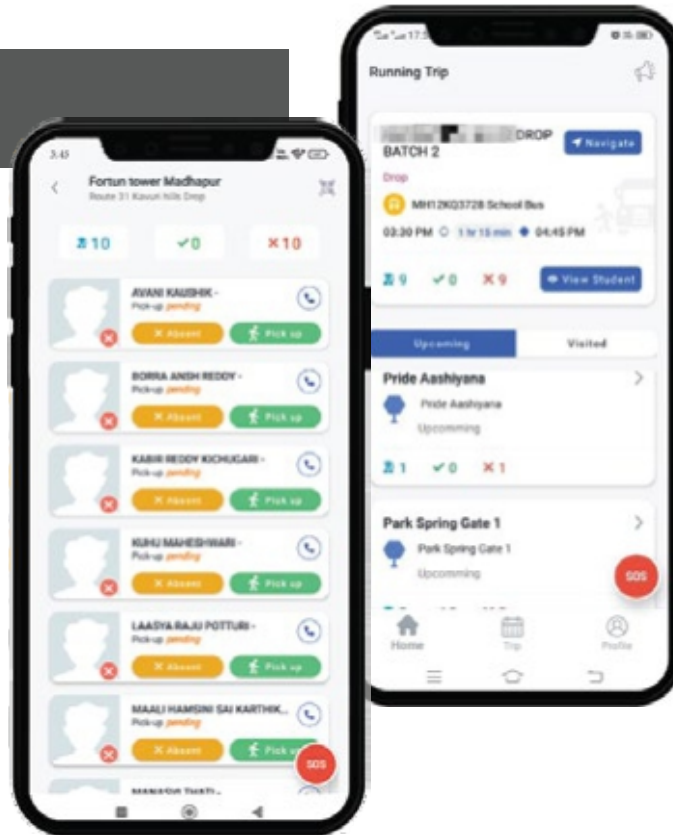

SMART ATTENDANCE

Simplifying Attendance, Securing Students.

Smart Attendance uses RFID technology to make attendance tracking fast and accurate. With this system, students simply scan their RFID cards to mark their attendance, eliminating the need for manual roll calls and reducing errors.

FEATURES :

- RFID/UHF Attendance Cards
- Real-Time Notifications
- Customizable Reports
- Integration with School ERP Systems
- Tamper-Proof Data Storage
- Emergency Contact System
- Energy-Efficient Hardware

ATTENDANCE WITH MOBILE APP

RFID ATTENDANCE FOR SCHOOL BUS

Students carry UHF RFID tags in their ID cards. UHF readers installed at school gates or classrooms automatically detect the tags as students pass by, recording attendance in real time. The data is sent to a school system, generating reports and notifying parents via SMS. This ensures fast, touchless, and accurate attendance tracking

UHF ATTENDANCE FOR SCHOOLS

BENEFITS :

- Automates attendance tracking, saving time for teachers and staff.
- Reduces the risk of human errors in attendance records.
- Provides parents with real-time updates for better accountability.
- Enhances security by ensuring students' whereabouts are always known.
- Improves emergency response with instant alerts.

SMART SURVEILLANCE

See Everything, Protect Everyone.

FEATURES :

- 4G Dome Cameras
- Wide-Angle Dashcams
- Video Analytics
- Cloud Storage/Physical Storage
- Driver Monitoring Systems
- Two-Way Audio
- Night Vision Capability
- Event Marking

Smart Surveillance uses advanced 4G-enabled cameras and dashcams specially designed for school buses to keep students safe and secure. These cameras provide real time monitoring, making sure every moment inside and outside the bus is recorded.

This system helps prevent potential safety issues by acting as a deterrent and allows school authorities to respond quickly if something happens. In case of an incident, the recorded footage serves as valuable proof to understand and resolve the situation.

BENEFITS :

- Enhances student safety by providing continuous surveillance.
- Builds trust among parents by offering transparency.
- Prevents mishaps through proactive monitoring.
- Provides valuable video evidence to resolve disputes or incidents.
- Improves driver accountability with real-time monitoring and feedback.

And Many More Features...

OUR PROBLEM-SOLVING APPROACH

Our mission inspires us to transcend our boundaries in enhancing the capabilities of school bus administrators. Through the collaborative efforts of our creative think tank and development team, we strive to innovate by introducing groundbreaking and sustainable features. Our goal is to generate positive outcomes for all stakeholders involved in the field of school bus administration.

FOR TRANSPORT TEAM

- A centralized method to keep track of every trip
- A centralized live platform to manage all student's information
- A platform to manage all student's pickup and drop points
- Daily performance audits for buses and trips
- Alerts in case the driver takes unwanted stops or deviates its path
- With an admin app, the transport team can manage all trips on the go
- No more calls from parents informing them of bus delays or changes
- Help the transport team arrange the most cost-effective routes
- Schedule all pick-up and drop-off times, as well as the real-time feed
- Do not maintain records in Excel anymore. The software stores every record of travel, children, and vehicle documents.
- No more confusion about child drop-off or pickup locations or bus stops
- Real-time notifications to parents about any important messages
- All history data of all pick-up/drop trips are stored for future reference and records
- Don't forget to keep track of any driver or vehicle-related documentation.
By using our auto reminders

FOR PARENTS

- 4G live bus monitoring for parents
- Parents can apply for leave from the app
- 3 parents can track the Bus at the same time.
- Peace of mind for parents with live monitoring of the bus in real-time
- No more standing for extra time, The app notifies parents when the bus is about to reach
- Very Intelligent and user-friendly app for parents with multiple languages
- Parents get notified related to Bus movements like Starting from school, Student Pickup, and Reached to school reminder
- Parents will be aware of the bus reaching 2 km before the pickup or drop point
- Any announcements from the school will be sent to parents directly through the app
- Parents can see their multiple kids on one screen with all trip details
- Dedicated support team to resolve parent's issues
- Parents will be alerted when the child boards the bus via RFID options*
- Parents can pay bus transport fees from the app*

OUR REVIEW

“

04/02/2023

Very Nice App interface and tracking solution

I have been using this app for a few months and it has made tracking school buses very easy for us. Instead of speaking to schools a few times each day now I can use the app for all tracking purposes. The satcop team is approachable for solving any issues and there support is appreciated. All the best to the team.

”

09/10/2024

One of the best tracking app

I have been using this app since few months and I can say with conviction that it is one of the best tracking app. This app has made tracking school bus so much easier without any fuss, their customer support system is also very prompt and helpful. I strongly recommend using this app.

”

“

January 7, 2025

My experience with this app has been excellent. Technical support team is helpful in addressing any queries, providing prompt & effective solution. Overall experience is great.
